Provision of Equipment for abstraction of water.

No person employed by North Yorkshire Fire and Rescue may hire or loan any equipment for the purpose of abstraction or obtaining water without the appropriate approval. Any prospective hirer should be referred to their Water Company who will give guidance on what consents and equipment is required. Only with specific prior approval of the Head of Community Risk and the Water Company will North Yorkshire Fire & Rescue play any part in the provision of water for purposes outside the remit of firefighting and training.

VAT at the standard rate should be added to these charges. With the exception of items 6 as this is a non business activity and incurs no VAT at this time
