

## **Smoke Alarm Fitting in Domestic Premises Policy**

### **INTRODUCTION**

The North Yorkshire Fire and Rescue Service promotes the fitting of alarms into domestic premises, as one of the most effective ways to reduce the number of fire deaths and injuries.

### **POLICY**

It is the policy of the Fire and Rescue Service to promote the installation of appropriate domestic smoke alarms into domestic premises occupied by vulnerable risk groups or other householders subject to the availability of appropriate funding..

It is the policy of the Fire and Rescue Service to promote arrangements with third parties to install alarms in domestic premises where this is part of a partnership with a public or private body.

The Fire and Rescue Service will install alarms in accordance with best practice, articulated in national guidance and in accordance with the manufacturer's instructions.
